

John Chittim of Lincoln County's "South Fork Boys" was in the small company of patriot militiamen who joined the larger groups on the trail of Major Ferguson. Lt. Col Frederick Hambright commanded after Col William Graham left. Major William Chronicle led the unit into battle on the east end of Kings Mountain. John Chittim's captain could have been any of the hand full gathered from the ravaged Tryon County region for the battle. Col Hambright and Doctor William Maclean testified about John's gunshot wound through the chest. He struggled with the disability from the wound until it contributed to his death in 1817.
