

William Lowrance applied for a pension (FPA S31217) in Owen County KY on 03Dec1832. His detailed declaration was supported by testimony from veteran William Knight. Both stated that Lowrance served in the Battle at the Cowpens 17Jan1781. Both stated that Lowrance was wounded during the war, but that his wounds happened in other engagements.

Lowrance provided one of the most accurate, orderly, and complete accounts of service. At Cowpens his captain was Abel Armstrong under Major Joseph McDowell. Statements that he was wounded there are not supported.
